COM_Net2/CN3 Install Pak

By Lexel Corporation

- **Jump Start to eBusiness!**

- **Technical Expertise Not Required! We Provide it for You!**

- **Customized Features**

- **Expert Training and Guidance**

Introduction

COM_Net2/CN3 can be purchased as a "turnkey" solution with the optional - but highly recommended - Install Pak. This valuable offering involves having COM_Net2/CN3 installation experts install, and configure COM_Net2/CN3. Also included are a set of "skins" that looks like your existing web site. Install Pak also includes travel to your site and onsite training of your staff. We leave you confident to manage COM_Net2/CN3 on your own. To facilitate and optimize the process, the COM_Net2/CN3 Installation Expert will be a Lexel employee who is active in the ongoing development and support of the application.

Features

The very affordable **Fixed Price** includes a comprehensive installation package as follows:

Installation Checklist
First, you'll be sent a checklist that outlines the installation process for COM_Net2/CN3, including Internet connectivity, network topology, firewall configuration and prerequisites. (i.e.: Windows Server installed, Internet Domain registered, etc…)

Conference Call
Next, our staff will work along with your team on a conference call to discuss the installation checklist at length, so you can completely understand what is involved and what is expected of your company prior to Lexel installation.

Remote Verification of Prerequisites
After you have all prerequisites in place, Lexel will remotely dial into your system for a diagnostic confirmation that all prerequisites have in fact been met and, if so, install the software.

Customized "Skin"
Lexel understands the importance of your company's brand image. That is why the Install Pak includes a set of custom skins that look like your current web site. No additional web programming required!

On-site Visit
A COM_Net2/CN3 Expert will travel to your site. During this visit you will be trained and all questions answered. An implementation strategy for your unique requirements will be developed. Travel expenses are included!

COM_Net2/CN3 Install Pak Benefits

Timesaving
Our competent Installation Experts will give you a fast path to eBusiness. Install COM_Net2/CN3 today and be on the Internet tomorrow!

Customized Skins
Lexel Developers will customize COM_Net2/CN3 skins to look like your website. This includes colors, fonts and logos. We truly provide a turnkey web store!

On Site Training
Our Installation Expert will travel to your site and work with your team to completely understand the application, operation, administration and catalog creation. When we leave you are ready to do eBusiness.

Guaranteed Success!
Our Installation Expert leaves your business with a fully operational system and extensive knowledge to manage COM_Net2/CN3.

Your Infor Affiliate is expected to have some degree of involvement in the above activities so they may best provide additional local support if needed.

The fixed fee covers all related expenses, including travel, food, lodging, consulting, training, etc. Contact Lexel Corporation to discuss price and availability for this offering. The Installation Expert will not be responsible for prerequisite hardware/software installation and debugging as well as optional functions such as firewalls, and credit card processing.
